PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

The Mill Creek culvert replacement project proposes to remove a culvert which is currently a fish passage barrier on Mountain Home Ranch Road in Chelan County. Mill Creek flows into Peshastin Creek near RM 5.2 and the culvert is located at RM 0.1 mile on Mill Creek. The culvert will be replaced with a fish passable bridge which will provide access to 2.2 miles of perennial stream with a relatively shallow gradient compared to nearby Allen, Hansel, and Camas Creeks. The existing structure is a 4' by 5' box culvert with a 1.5% slope and 2' outfall drop which is a complete fish passage barrier. Mill Creek is spawning and rearing habitat for steelhead and it may be used by spring Chinook and bull trout.

Describe existing project site conditions.

Mountain Home Ranch road is a Chelan County road
